On Your Money Back

See reverse for Commonly Asked Consumer Questions
**Q:** I’ve cleaned up the mess but the smell won’t go away—what should I do?

**A:** Repeat treatment of the affected area. If you’re treating a carpeted area, ensure product has penetrated through carpet pad and subfloor. Only then will you be able to fully eliminate the odor. In some cases, you may need to peel back the carpet and padding and apply the product directly onto the subfloor to eliminate the source of the odors. Do not treat stains with common household cleaners; they may set the stain, making it impossible to remove.

**Q:** Which formula do I use to remove a stain that other pet products have failed to remove?

**A:** The Wee-Wee SEVERE Carpet & Fabric Advanced Stain & Odor Destroyer is a maximum-strength formula that is designed to eliminate the toughest pet messes, including stains that other products have failed to remove.

**Q:** Where are Wee-Wee Stain & Odor Destroyers manufactured?

**A:** All the formulas are manufactured in the United States.

**Q:** On which surfaces can I use the Wee-Wee Urine Eliminator?

**A:** Wee-Wee Urine Eliminator is formulated to treat urine stains on most common household surfaces, such as carpet, fabric, and most floors.

**Q:** What do the formulas smell like?

**A:** Wee-Wee Stain & Odor Destroyers have a “fresh and clean” fragrance that is not overpowering and will not linger in your home for days.

**Q:** Are Wee-Wee Stain & Odor Destroyers safe for pets?

**A:** All Wee-Wee Stain and Odor products are formulated to be safe for use around pets and homes when used as directed.
